

Professional Certificate Course

Course Name **Advanced Aviation Knowledge**

Delivery *Virtual Class / Online* 5 days (3 hours per day)
 Onsite / Classroom 3 days (8 hours per day)

About the Course

The course will lay the groundwork for designing and implementing strategies, programs and action plans concerning airport business development and diversification strategies. Participants will be presented with case studies to enable them to identify opportunities and risks related to a competitive national and international business environment.

Learning Objectives

Upon completion of this course, participants will be able to:

- Formulate, adopt, and optimize strategic decisions in complex economic environments.
- Understand the impact of deregulation and international conventions and agreements on aviation development, with a focus on airport development.
- Analyze the impact of aviation on community, tourism and the economy.
- Assess airport operations.
- Explain the importance of safety and security management.

Target Audience

Middle, Senior and Executive Management of airports and national aviation authorities. It is ideal for initial or recurrent training.
