

Professional Certificate Course

Course Name Security Crisis Management

Delivery *Virtual Class / Online* 5 days (3 hours per day)
Onsite / Classroom 5 days (8 hours per day)

About the Course

The aim of the course is to provide management personnel with the knowledge and skills needed to develop and implement sound crisis management procedures.

Learning Objectives

Upon completion of this course, participants will be:

- Able to explain the need for a crisis management plan to respond to major security emergencies occurring at airports
- Able to describe essential components of a crisis management plan
- Able to identify the composition and function of a crisis management team
- Able to describe essential facilities necessary in support of a planned response to crises
- Able to list system testing features necessary to ensure currency in crisis management plans

Target Audience

- Staff at the mid to senior management levels of airports that have been assigned responsibility under the State's National Civil Aviation Security Programme to form part of the crisis management element to respond to acts of unlawful interference occurring within that State.
